TO THE TRADE

January, 1953

Dear friends,

Each succeeding year finds us in a better position to fill your lining out requirements. Of course we can not grow everything and won't ever attempt to but we can grow the best. We like to think of our stock as the aristocrats of the ornamentals and you will find many items that are not listed in most catalogs. You can help our selections by telling us about your favorites. Your comments and criticism are always welcome.

Our importation from Holland of hybrids of Azalea Mollis, Azalea Ghent (Pontica) and Rhododendron proved so successful last year that we have again imported a fine selection and have even been able to reduce prices. You will find these items listed on pages 6 and 12. We're sure you will find them a profitable purchase.

Though finished stock is not our aim we occasionally have small sizes for sale. On pages 16 & 17 we have listed what we have to offer for call only.

Our aim is to serve and your inquiries are always welcome.

Yours sincerely,
John Vermeulen,
Peter Vermeulen

AZALEA HYBRIDS

GRAFTS AND LAYERS - 3½" POT

We have taken the risk out of importing these excellent varieties by getting them in January, potting them into 3½" clay pots and placing them in a cool greenhouse. There they will establish a solid ball in a special soil and peat mixture and will be ready for May delivery.

To have something different that is good is the aim of most nurserymen. These Azaleas should turn the trick for you. They are hardy in Zone V (Mass., Southern N. Y., Pa. & Ohio) and south.

EVERY PLANT A GROWING PLANT

MOLLIS - Profusion of large trumpet like flowers 2-2½" across that bloom in March or early April. Foliage is bright green turning to gorgeous Fall colors of bronze and red.

GABLE HYBRIDS. Hybridized by Joseph Gable of Stewartstown, Pa., after long years of meticulous work to find the hardiest and the most beautiful. Offered below are the hardiest of the hardy. From 2 1/4" pots.

CAROL (B8G) Pure, very bright hose-in-hose pink like Caroline Gable but grows much lower and more compactly. .30 .25

CAROLINE GABLE (96G) Hose-in-hose brilliant pink with good foliage .30 .25

CORSAGE (16G) Single, large orchid flowers. Blooms profusely. .30 ..

ELIZABETH GABLE (21G) Semi-double rose pink, truly evergreen with deep green foliage .30 .25

F3G Hose-in-hose blood red. Plants dwarf to medium. Much like James Gable (F1G) .30 .25

LA LUMIERE (100G) Small single bright red. Rather slow growing plant with good habit. .30 .25

LORNA (C8G) Beautiful deep pink, fully double flowers borne in profusion on a compact evergreen plant. Blooms last long without fading. .30 .25

MARYANN (38G) Clear double pink large flowers on a sturdy evergreen plant. Very hardy. .30 .25

MARY FRANCIS HAWKINS (C3G) Hose-in-hose deep pink, tall vigorous grower. .30 ..

MILDRED MAE (69G) Large lavender flowers spotted bright red in the throat. Broad shapely plant with dense evergreen foliage. An early spectacle. .30 .25

POLARIS (118G) Hose-in-hose pure white flowers somewhat larger than snow. Plants larger, more open. .30 .25

ROSEBUD (B5G) Dwarf, almost miniature, with fully double soft rose pink blossoms that resemble small double roses especially when opening. Extremely floriferous and will not crowd the smallest garden. .30 ..

ROSE GREELEY (D3G) Pure white, hose-in-hose. Plant compact with good branching habit and hardy. The best white yet offered to replace snow, ledifolia alba. limit 25 .30 ..

HINO-CRIMSON. Bright crimson-red kurume with non-fading characteristics. Will not fade in the brightest sun. Introduced by us in 1944 and now a favorite to take the place of hinodegirl for it is hardier and has better color appeal both in flower and its foliage which is glossy dark green. Profusion of flowers both outdoors and in forcing.
